

Applications guides | POS System

for the acoustic components

A signal sound is emitted when button pressed or printing finished.

Point of sale (also called POS or checkout, during computerization later becoming electronic point of sale or EPOS) is the place where a retail transaction is completed. It is the point at which a customer makes a payment to the merchant in exchange for goods or services. At the point of sale the retailer would calculate the amount owed by the customer and provide options for the customer to make payment. The merchant will also normally issue a receipt for the transaction.

Suggested Item	WDB	UDB	DB-E328
Size (mm)	∅ 12 x 6.5	∅ 12 x 7.5	∅ 13.8 x 7.5
Sound Pressure Level (dBA)	85	83	80
Product Type	Magnetic	Magnetic	Piezo
Type	Pin	Pin	Pin
