

# Applications guides | Electronic Pest Control for the acoustic components

Electronic pest control is the name given to the use of any of the several types of electrically powered devices designed to repel or eliminate pests, usually rodents or insects

Numerous electronic pest control devices are readily available throughout the world. Hardware stores and garden centers usually stock some sort of electronic device advertised to repel a variety of pests and one can also find them on the internet. Although these devices have been around for at least 20 years, they have only recently become popular and widely advertised, probably due to their environmental friendliness claims.

Suggested Item	64PE061350LF	64PE121650
Size (mm)	Ø 6.5 x 0.23	Ø 12 x 0.41
Frequency(Hz)	13500	16500
Capacitance(pF)	2600	6000

Suggested Item	DB-E538	171PZ412200
Size (mm)	Ø 16.5 x 6.7	Ø 41 x 12.5
Sound Pressure Level (dBA)	75	95
Product Type	Piezo	Piezo
Type	Pin	Plate
