

Applications guides | Product Demo Security for the acoustic components

A very loud siren sound will be emitted when product detached from docking.

It is mainly designed for secure displays of live merchandises such as mobile phones, mp3/mp4, PDA, GPS, electronic shavers and other valuable products. Attached with 3M adhesive tape connecting the samples which effectively prevent showing products from being stolen in exhibition, supermarket, shops and so on. Allowing customers to take the sample on hands and try it freely. Magnet in shell let the displaying items return in place accurately and quickly. Take full advantage of the shop wall space to expand the actual exhibit space Reduce costs: the cost of shop space saving, sales personnel costs, cost management, and other aspects. Secure & neat displays of merchandises, interactions between consumers and merchandises are realized with this product, thus better promote sales of open merchandises.

Suggested Item	64FE350320	64FE350260
Size (mm)	∅ 34.55 x 052	∅ 35 x 0.48
Frequency(Hz)	3200	2600
Capacitance(pF)	Cm : 37000 / Cf: 4600	Cm : 36000 / Cf: 4000

Suggested Item	DB-E168
Size (mm)	∅ 39 x 15.8
Sound Pressure Level (dBA)	85
Product Type	Piezo
Type	Pin
